

## **LATE SCOPING CONSULTATION RESPONSES**

Consultation bodies have 28 days to respond with any comments, stating either the information that they consider should be included in the ES or that they do not have any comments.

Any responses received after the deadline will not be considered within the scoping opinion but are forwarded to the applicant for consideration in accordance with the policy set out in the Commission's Advice Note 7: Environmental Impact Assessment, Screening and Scoping.

The following EIA scoping consultation responses were received after the consultation deadline specified under legislation and therefore did not form part of the Commission's scoping opinion.

date 12 December 2011

Dear Mr Pearce

**Proposed Fieldes Lock Rail-Linked Power Station, Ratty's Lane,  
Hoddesdon, Herts: Consultation as required by Section 42 of the  
Planning Act 2008**

Thank you for consulting us on this application.

We note that the scoping opinion concludes that there is likely to be minimal impact on any of the historic assets which fall within the study area, and that the scope for impacts on buried archaeological remains has yet to be determined. In order to fully elucidate these impacts it is proposed that the Environmental Impact Assessment will include an archaeological and cultural heritage assessment. English Heritage concurs with this approach and would welcome the opportunity to discuss the methodology and outcomes of the assessment with you in due course.

Yours sincerely

Deborah Priddy  
Inspector of Ancient Monuments

BROOKLANDS 24 BROOKLANDS AVENUE CAMBRIDGE CB2 8BU
